Hospitals Today(ASSOCIATED PRESS TELEGRAM)
New York, May 14.—Two passen-
gers and two trainmen were killed
and forty-two passengers were in-
jured when passenger train No. 29,
known as the Buffalo Special, was
derailed at Schodack Landing, near Al-
bany late last night, according to a
statement issued by the New York
Central railroad here today.A Joslin, a fireman of Rensselaer,
was instantly killed and R. Sher-
wood, an engineman of Rensselaer,
was badly injured and died later.
The names of the dead and injured
passengers were not yet available.The Buffalo Special left New
York at 8 o'clock last night. At
11:25 while taking to the middle-
track at Schodack Landing, the state-
ment says, the engine and nine cars
were derailed, some of them turning
over. A special train with doctors
and nurses carried the passengers to
Albany.A later statement given out at the
road's offices said one of the pas-
sengers killed was Benson Hughes,
of New York City, and that the other
man, has as yet not been identified.
All except one of the ten cars on the
train left the rails, one containing
passengers running into the Hudson
river. This car remained upright
however and the passengers were
rescued through the windows. This
later statement estimated the number
of injured at fifteen.

NONE SERIOUSLY INJURED.

(ASSOCIATED PRESS TELEGRAM)
Albany, N. Y., May 14.—Forty-two
persons injured in the New York
Central wreck at Schodack Landing
late last night were brought to Al-
bany hospitals early today. None
was reported seriously injured.
Thirteen left the institutions after
receiving first aid treatment and it
was stated that most of the others
would be able to leave during the
day.Among those remaining in the hos-
pitals were: William G. Whitney,
Archibald Shingler, Paul Furis, Detroit;
William J. Becker, Sandusky, O.;
and Mrs. John Richarisher, Cleve-
land.The body of the fourth person
killed this morning was identified as
that of C. G. Drummond of Brook-
lyn.AMERICAN AIRMAN'S
FATE IS NOT KNOWN(ASSOCIATED PRESS TELEGRAM)
New York, May 14.—While on an
air patrol trip above the German
lines in France, Lieutenant Frank K.
Knapp, an American with the British
royal air forces, disappeared on
April 16 and his fate is not known,
according to word received by his
parents in Brooklyn.Two days earlier Lieutenant
Knapp was attacked by five German
aeroplanes. He descended 10,000 feet
and escaped without injury after
downing one of the enemy machines.
Knapp enlisted in Canada last
June at the age of 24.FEDERAL TRADE COMMISSION
MAKES COMPLAINT AGAINST
VAUDEVILLE MANAGERS ASSO.(ASSOCIATED PRESS TELEGRAM)
Washington, May 14.—Complaint
alleging that the Vaudeville Man-
agers Protective Association is a com-
bination in restraint of commerce
and that it collects excessive fees,
dominates the vaudeville industry
and black lists vaudeville perform-
ers who are not in good standing
with the association was issued today
by the federal trade commission. The
complaint is against the Vaudeville
Managers Protective Association.
The National Vaudeville Artists
Union, the United Booking of-
fices, Vaudeville collection agency,
A. Paul, E. F. Albee, Sam A.
Scribner, Marcus Loew, Martin Beck,
E. S. Moss and Sime Silverman.The commission asserts that be-
cause of the large number of theat-
res controlled by the association it
is impossible for variety performers
to make a living outside of these
houses and that through the creation
of the monopoly the association has
oppressed and practically stamped out
a former association known as the
White Rats Actors Union and Associ-
ated Actors of America.The complaint states that the
"dominant interests in the vaudeville
Managers Protective Association is the
string of theatres known as the
"Keith Circuit" of which Keith and
Albee own the controlling interest."

REMOVED FROM OFFICE.

superintendent from office, specifi-
cally charging of incompetency and
malfeasance. King declared he would
fight the charges.China Sends Able Commissioners to Make a Study
of Educational Institutions in the United States

SAMUEL I. WU (LEFT) AND OU TIN CHIN

Chicago, May 14.—(Special)—
"Mr. You-tien-Dou."
That's what Ou Tin Chin, Chinese
educational commissioner to the
United States, thinks of the Kaiser.
It means: "His acts are inhu-
man.""And because of that," the com-
missioner added, "China is dropping
all German studies in her schools.
And who shall say that that is not
why China now is sending me to the
United States that she may establish
a good American school system in
our native land, instead of Germany."which we once believed spelled ef-
ficiency in everything."With this object in view the com-
missioners, Samuel I. Wu and Ou
Tin Chin, are touring the United
States and taking in all the best ed-
ucational centers. They are seek-
ing information especially regarding
vocational lines."We have large masses of people
in China and must educate them
along vocational lines, especially
now that the world war is forcing
every country to devote its energies
to the big industries," he said.FIRE HEAVY ON
SOMME SECTOR
DURING NIGHT(ASSOCIATED PRESS TELEGRAM)
London, May 14.—German artil-
lery fire was violent last night in the
Somme and Ancre sectors, says the
official statement from Field Marshal
Haig today.The statement follows:
"We carried out a successful raid
last night northeast of Robecq,
(Flanders) and captured a few pris-
oners without casualties to ourselves.
A party of the enemy which attacked
one of our posts west of Merville was
repulsed with loss.""The hostile artillery was active
during the night in the Somme and
Ancre sectors."

FRENCH REPULSE RAID.

(ASSOCIATED PRESS TELEGRAM)
Paris, May 14.—Heavy artillery
fighting in the Champagne is re-
ported in today's official statement.Only patrol actions occurred on the
main battlefield in Picardy. The
announcement follows:"French patrols carried out op-
erations north of Hangard (on the
front before Amiens) near Courcy
and west of the Meuse, bringing
back prisoners. We easily repulsed
a German raid on small French posts
northwest of Orlieres-Sorel."The artillery fighting was rather
spirited in the Champagne, near
Butte du Mesnil, and in the Vesges.
A German local attack north of
La Fecit was repulsed by our fire.
"There is nothing to report else-
where."AMERICA'S ARTILLERYMEN
HARASSING THE GERMANS.(Compiled from A. P. Dispatches.)
Committed, as they are, to a con-
tinuation of heavy fighting on the
western front, the Germans appar-
ently are taking their full time be-
fore beginning another forward op-
eration on the line from Soissons
north to the Belgian coast. In two
weeks the enemy has made only one
determined attack and this was re-
pulsed by the allied forces southwest
of Ypres.Along the vital sector of the sal-

AMERICAN ACE(ASSOCIATED PRESS TELEGRAM)
Paris, May 14.—Sergeant Frank
L. Baylies, of the "Stork" escadrille,
has brought down another German
machine, the eighth to his credit,
since February 19. The sergeant's
home is in New Bedford, Mass., and
he formerly served in the American
field ambulance.PORK PACKER'S
SON-IN-LAW IN BAD
WITH GOVERNMENT(ASSOCIATED PRESS TELEGRAM)
Chicago, May 14.—Count James
Minotto, son-in-law of Louis F. Swift,
porker, is out on \$50,000 bonds to-
day as the result of habeas corpus
following arrest yesterday on a pre-
sumed warrant charging him with
being a dangerous alien. The bonds
were signed by Mr. Swift and his at-
torney, Henry Vedder, and the hear-
ing was set for May 20 by Federal
Judge George A. Carpenter. The
count, who was born in Berlin and
claims to be an Italian subject, won
a fight with the federal authorities
last fall when proceedings looking to
his deportation were brought.ITALIAN TROOPS
INFLECT HEAVY
LOSS ON ENEMY(ASSOCIATED PRESS TELEGRAM)
Italian Army Headquarters in
Northern Italy, Monday, May 13.—
Italian troops repulsed with heavy
loss a desperate enemy attempt last
night to redeem the loss of Monte
Corno. It is believed that this was
only the first of a series of efforts to
reclaim the lost ground owing to the
value of the heights which commands
the approaches to the valley lead-
ing from Trento to Rovereto.The fight last night was in the
darkness and a bloody hand-to-hand
struggle over the rocky slopes of the
mountain. The Italian positions how-
ever were maintained intact.Thus far the fighting around
Monte Corno has been of local char-
acter and not a part of any general
offensive although the outposts show
increasing activity all along the
mountain front.OUR TROOPS TO
FIGHT WITH THE
ENTENTE ARMIESError Made In Statement
By Canada Regarding
American SoldiersRELATED TO PERIOD WHEN
AMERICA FIRST JOINED WARMovement of Troops to
France is Proceeding
As Planned(ASSOCIATED PRESS TELEGRAM)
Ottawa, May 14.—The statement
that it had been decided not to use
American forces in France until they
had become a "complete, powerful,
self-supporting American army," was
incorrect and "due to an error in
compilation," according to a state-
ment received from the British gov-
ernment by the Canadian govern-
ment and made public today as "of-
ficial news."The reference, which is now cor-
rected, was contained in a summary
of operations on the British front
made public here Sunday night last
as coming from the war committee
of the British cabinet. The state-
ment from the British government
given out today says that owing to
the error in compilation it was now
made clear that the reference "re-
lated to the period when America
first joined the war and had no re-
lation to present events whereby the
American army is being brigaded
with the entente armies."The statement from the British
government follows:"War office summary. A correc-
tion should be made in the weekly
circular telegram dated May 10,
summarizing operations to May 9,
the text of which read: 'entente so confident
that, given choice of small im-
mediate American army for defence
or waiting till reinforced by com-
plete powerful self supporting army,
have chosen latter.' Owing to an er-
ror in compilation it was not made
clear that this related to the period
when the Americans first joined the
war and had no relation to present
events whereby the American army
is being brigaded with the entente
armies."REPORT CONNECTED WITH
POLITICAL CONTROVERSY(ASSOCIATED PRESS TELEGRAM)
Washington, May 14.—The British
government's prompt repudiation of
the statement sent out from Ottawa,
Sunday, that it would not be neces-
sary now to brigade American units
with the Anglo-French armies was
regarded by American officers to-
day as virtual confirmation of their
theory that the unexpected develop-
ment had been an echo of the Gen-
eral Maurice incident.The announcement of Lord Reading,
British ambassador yesterday,
that he was confident that no state-
ment, changing the plan of utiliz-
ing American troops at once, had
been issued with the knowledge of
Premier Lloyd George caused obser-
vers here to connect the report with
recent political controversy in Eng-
land.Coincident with Lord Reading's
announcement, Secretary Baker is-
sued a formal statement declaring
that American troops were being
used in battle and would continue
to be used as the supreme command-
er, General Foch, deemed best. In-
quiry at the war department showed
that the expedited movement of
troops to France was proceeding as
planned after it was announced that
Americans would be brigaded with
the British and French.The London denial last night said
that the statement attributing to
the war committee of the British cab-
inet, the announcement that it had
been decided not to use the Ameri-
can army until it became self-sus-
taining force was due to the error,
which had been corrected.SUPREME COURT'S
DECISION ON THE
TAX APPRAISEMENT(ASSOCIATED PRESS TELEGRAM)
Columbus, May 14.—Tax apprais-
ments should be made up on the ac-
tual value of a corporation's person-
al property and not upon the corpo-
ration as a running concern, accord-
ing to a decision of the Ohio su-
preme court today in a Cleveland
case.The Cuyahoga county auditor
placed a valuation of \$2,420,710
upon the Hydraulic Pressed Brick
company of Cleveland. The com-
pany assessed its property at \$460,-
472, and obtained an injunction from
the Cuyahoga county courts claim-
ing that the county auditor's valua-
tion included the market value of the
company's stock. The supreme
court today refused to hear the case.

THE ROTARIAN WAY.

war orphan girls of France for one
year.James Gordon Bennett, Editor New York Herald,
Dies Early Today In Villa at Beaulieu, France

JAMES GORDON BENNETT

Beaulieu, France, May 14.—James Gordon Bennett, proprietor of the
New York Herald, died at 5:30 o'clock this morning after having been un-
conscious for two days.Mr. Bennett's last words before lapsing into unconsciousness were in re-
lation to his newspaper interests. Mrs. Bennett was with her husband
when he died.Dispatches from France early this month reported Mr. Bennett so seri-
ously ill that his condition was given cause for anxiety. He had been for
some months at his villa at Beaulieu, in the Riviera, after an illness, and
advices from Nice at this time announced that he had had a relapse.FOOD ADMINISTRATOR
CLOSES THREE STORES(ASSOCIATED PRESS TELEGRAM)
Columbus, May 14.—The federal
food administration for Ohio an-
nounced today that it closed three
stores temporarily in the mining dis-
tricts in Athens county for violating
food regulations. One of the stores
is owned by R. G. Blanchard of Hol-
lister. The other two are located at
Buchtel and Orishon and are owned
by F. L. Woodworth.The food administration announced
that it now has inspectors out in
Ohio checking up food stores and
bakehouses to see that they are com-
plying with the administration's re-
gulations. The three stores in Ath-
ens county were found to be making
excessive charges for sugar.ABLE TO REMOVE
BANDAGES FROM THE
PRESIDENT'S HAND(ASSOCIATED PRESS TELEGRAM)
Washington, May 14.—President
Wilson removed today the bandages
which have encased his left hand
since he burned it four weeks ago by
taking hold of an exhaust pipe in
the British tank that visited the
White House. The hand was healed
but the burns have left an ugly scar
which covers the entire palm. The
president was compelled to give up
golf, his daily recreation, for two
weeks but recently he has been play-
ing a one handed game, at which he
has become quite proficient.ALL PLATINUM
COMMANDEERED BY
THE GOVERNMENT(ASSOCIATED PRESS TELEGRAM)
Washington, May 14.—All plat-
inum, iridium and palladium held
by refiners, some importers, manu-
facturing jewelers and large dealers,
has been commandeered by the gov-
ernment. The price fixed is \$105
per troy ounce.The prices fixed for iridium was
\$175 an ounce, and for palladium
\$135. Manufacturing jewelers may
use 25 per cent of their present
stocks for commercial purposes by
signing waiver of all claims for com-
pensation from the government by
reason of the requisition.Delivery to the government of
manufactured platinum now held or
controlled by jewelers would be
waived provided they sign a waiver
of claims similar to the manufactur-
ers' waivers.

THAT ECONOMIC TREATY.

(ASSOCIATED PRESS TELEGRAM)
Amsterdam, May 14.—A Vienna
dispatch says that a special economic
treaty between Rumania and the
central empires provides that Ru-
mania will sell to Germany and An-
stro-Hungary her surplus production
in 1918 and 1919 of all kinds of
grain, including oil seeds, and also
fodder, pulse, poultry, cattle, fibrous
plants and wool. Rumania also
agreed to sell this surplus to the
central powers for a further period
of seven years, if it should be re-
quired.LICKING COUNTY

WITHOUT WARNING(ASSOCIATED PRESS TELEGRAM)
Chicago, May 14.—Five thousand
teamsters and truck chauffeurs went
on strike without warning here to-
day and Patrick Barrell, business
manager of the truck drivers union
said that 15,000 men would be out
by tonight. They demand an in-
crease of \$3 a week in wages. The
strike was authorized at a secret
meeting of the teamsters joint coun-
cil last night. No notice was served
on employers.SAY GERMANS

DON'T KNOW WHEREABOUTSInquiry Being Conducted
Into Rumors of Hoarding
Arms By Germans(ASSOCIATED PRESS TELEGRAM)
New York, May 14.—Reports that
thousands of rifles had been secret-
ly imported from the Krupp works at
Essen in order to "Germanize" the
United States were related today at
an inquiry conducted by State At-
torney General Lewis into rumors
of hoarding of arms by German inter-
ests in the United States.Edgar A. Holmes of this city, a
witness, credited the reports to a
man named James H. Crossley.
Holmes, as a broker, tried to buy the
rifles, but was unsuccessful, he said.
During the negotiations, he said,
Crossley told him that some 1,000,-
000 rifles had been imported from
Essen, via the Hoboken docks of two
German steamship companies and
were to be used in the United States
if the Germans were successful in
reaching the English channel ports.Mr. Holmes identified a copy of a
letter written by himself offering to
sell 1,000,000 Mausers and 1,000,000
cartridges. The letter, dated June
9th, 1917, was addressed to Dr.
Thomas Darlington of New York,
former health commissioner.Holmes testified he had never
seen the articles but had talked with
an engineer named Francis J. Judd,
who said he had seen boxes contain-
ing 280,000 rifles. Two months ago
Holmes said, the United States tried
to buy them but they were not pro-
duced. Holmes had been in touch
throughout the negotiations, he said.
Charles H. Murray, a hotel owner
of Washington, D. C., testified he had
heard of the existence of the rifles
through a Russian agent, Ivan Nor-
dony, who claimed they had been
taken to an upstate New York farm
and that he had shot one of them
himself.Robert T. Tucker, a tanner of
Charleston, S. C., testified of hearing
of the rifles through his acquaint-
ance with Russians in business. Judd
told Tucker, he said, he had seen
cannon and rifles at a warehouse in
Brooklyn. According to the witness
a New York lawyer finally told him
the rifles had been sold."I am thoroughly convinced that
those rifles are in this country and
that Lussig knows where they are,"
said Tucker at the close of his exam-
ination.TRACTION CARS LEAVE

CRASH INTO BUILDING(ASSOCIATED PRESS TELEGRAM)
Dayton, May 14.—Property dam-
age estimated at between \$25,000
and \$50,000 was caused, an em-
ployee of a restaurant was seriously
injured, when two freight trac-
kers left the curve at East
Fifth and Brown streets early this
morning and crashed into five build-
ings on the north side of Fifth
street. The cars broke loose from
the short train hauling steel rails
and came down an incline at the
rate of fifty miles an hour.ORDNANCE PLANT TO
NEVILLE ISLAND.(ASSOCIATED PRESS TELEGRAM)
Washington, May 14.—Neville Is-
land, in the Ohio river, near Pitts-
burgh, was selected today by the war
department as the site for the great
government ordnance plant to be
built and operated in the interior.
Work will be pushed as rapidly as
possible.

GOOD FOR COLUMBUS.

(ASSOCIATED PRESS TELEGRAM)
Columbus, May 14.—Resolutions
introduced in the Columbus city
council last night requests the re-
moval of the statue of Schiller, the
German poet which stands in the
center of Schiller park and the re-
moval of a bronze tablet on a fence
surrounding the "peace oak" com-
memorating the German victory over
France in 1870. A movement is on
to rename Schiller park Washington
park.

(ASSOCIATED PRESS TELEGRAM)
Columbus, May 14.—Preparations
are being made at the Columbus bar-
racks for receiving more than 5000
drafted men from Michigan and
Pennsylvania this week. The men
will arrive in two contingents will
be examined and assigned to
various training camps within a few
days.

MORE LOANS TO ALLIES.

Washington, May 14.—Secretary
McAdoo today authorized loans of
\$200,000,000 to Great Britain;
\$100,000,000 to France and \$100,-
000,000 to Italy, making the total
loans to all the allies \$575,000,000.

OLD AGE A CRIME!

Some people are young at 60—red
cheeked, ruddy, and vigorous. Others
are old at 40—pale, thin, and stiffen
up a bit; step beginning to lag and
lose its springiness; occasional touches
of pain in the back, feel tired without
cause, and possibly a twinge of rheu-
matic pain.

In most cases these are the danger
signals to warn you that the kidneys
are not promptly doing their work of
throwing off the poisons that are al-
ways forming in the body. To neglect
these natural warnings is a crime
against yourself. If you have these
symptoms you can find prompt relief
in GOLD MEDAL Kidney Pills. These
pills, for more than 200 years this
has been the recognized remedy for
kidney and bladder ailments.

GOLD MEDAL Kidney Pills are
imported direct from the labora-

see about forty-five hundred men
lined up at once to go to "chow." We
get plenty to eat and if we don't,
we go back again. We have mass every
Sunday in Knights of Columbus hut
and picture shows in the evenings.
It is fitted up inside like a boat.
They have amusements for us at Y.
M. C. A. also. I was over to Fall
river last Saturday and watched the
men hunt for Gams. They take a
hoe and dig down in sand and gravel
after the tide goes down in places
that look like holes filled with wa-
ter. I picked up some oysters in
their shells, there were only about
two good ones. All we can see here
is water and boats of all description.
There was a battleship an-
chored out in the water some
distance from us. I could tell by the
guns on her. I had the opportunity
of seeing one of those peculiar ships
painted black and white. It looked
like checkers even to the smoke
stack. I like it here and am feeling
fine. Ernest, 6th Regt. 4th Co. Re-
member me to all my friends.

The following letter has been re-
ceived from Clarence Shimmel by
his sister, Mrs. H. C. Fitzsimmons:
New York, May 16. Dear Sister: I
received your kind and most wel-
come letter, and was very glad to
hear from you, will have to excuse
my writing though as my pen is on the
burn.

Well I have been almost across
and did not land over
there as we took two convoys over,
two ship loads of soldiers. There
were about 5,500 all together. We

CLARENCE SHIMMEL.

took them about 150 miles from
France and turned around and came
back. We all thought we were going
to land but got fooled. We were on
the ocean 26 days, without seeing
any land and only saw four boats.
I was certain it was when we got
back. Some of them got 48 hours
horribly tonight, so I am mess cook,
and I write every night, or just came
out to write, but will make a longer
letter when I get 48.
Going over I was sick two or
three days and could hardly stand
on my feet. It was so rough the first
two or three days, the waves would
almost go over the ship. The boys
who were on watch got all wet.
Some of the older men and all of
the new ones were sick, so I was not
alone.
Well it is about 2 o'clock in the
morning and I have to get up at
4:30 so I can get back to ship to

serve breakfast, so I will close for
this time. Your brother, Clarence.

The following letter has been re-
ceived from Private John R. Paul-
sen of Company B, 166 U. S. Infan-
try in France:

My Dear Mother and Father—
This is Thursday evening and we are
just back from the trenches for the
second time, so I think I had better
spend my first evening in writing
to you. I have received several let-
ters and best of all your box while at
the front. You can imagine how
much I appreciated it, not only be-
cause it came from home but be-
cause it came at a time when I needed
it and that might be. I thank you
very much mother and hope that you
will continue sending boxes as you
feel able. There is one thing I
want you to send and that is a bot-
tle of (oil of cedar). Now this seems
funny but I have several hundred
cuties that I wish to get rid of so
don't delay in sending.

Well I haven't written much but
I seem to be at a point where I
can't think of anything to write. I
am getting about all that happens in
France. Again I am sending the
Reveille which gives many interest-
ing things. I received a letter from
Mary Hammond and the letter from
Will which I intended to answer
soon. Tell the Mowery children
that I got their Easter card and it
was very pretty. I often think of
them, although I have never written.
Probably when we get back to some-
town where I can buy a present I
will send it to them. I have a pair
of wooden shoes like the children
wear but I think I can find some-
thing better.

Well mother I think I will close
now. I hope this letter reaches you
and finds you in as good health as
I am. It seems as if the climate
over here agrees with me as I have
never been sick yet. We are having
good weather now, the sun is shin-
ing and it makes me feel more like
home. The trees are beginning to
come out in leaf and many wild flow-
ers are jumping up. I picked my
first violets in this country a few
days ago, which I pressed and am
going to keep as souvenirs. Good bye
Mother, write soon. From your lov-
ing boy, Raymond. Private John R.
Paulsen, Co. B, 166 U. S. Inf., A. E.

clock, at the K. of P. hall, East Main street, will be held the annual memorial of the Newark Trades' and Labor Assembly. At this time will take place the dedication of the huge service flag, a star having been placed for every man either enlisted or drafted who is a member of an organized craft in this city.

A very timely program has been arranged by the committee in charge. The principal speaker of the day will be Judge R. M. Wanamaker, of the Ohio supreme court, and his subject will be "Lincoln on Law and Labor." President Lincoln was as great a believer in the democracy and rights of the working class as he was in the freedom of the negro. The speaker will have a good message for everybody and is an able orator.

These services are not for members of organized labor only, but are open to the public, both to ladies and gentlemen. A very cordial welcome is extended to all to be present.

TO RELIEVE CATARRHAL DEAFNESS AND HEAD NOISES

If you have Catarrhal Deafness or head noises go to your druggist and get 1 ounce of Eucalypti (double strength), and add to it 1-4 pint of hot water and a little granulated sugar. Take one tablespoonful four times a day.

This will often bring quick relief from the distressing head noises. Clogged nostrils should open, breathing become easy and the mucus stop dripping into the throat. It is easy to prepare, costs little and is pleasant to take. Any one who has Catarrhal Deafness or head noises should give this prescription a trial. T. J. Evans

FISH IN LICKING COUNTY 50 YEARS AGO

(By L. B. Brown)

As we sit along the banks of old Licking creek beside one of the grey-headed boys of yesterday and listen to the fish tales of one-half a century back we are tempted to throw back the little fish we catch now for seed. Old Uncle Billy Orts has several tales to tell of the fishing holes formed below the huge drifts that collected in the creek at frequent intervals. Trunks of trees, logs and brushwood abounded in the low flood plain where the soil was the most fertile and the clearing was going on rapidly. Uncle Billy half-closed his eyes and related a story of the big catch of goggle eyes that followed a little freshet when the waters were slightly roiled. What we carry home now were too small to keep then. A few hours' patience then netted more fish meat in his day than a whole season's efforts are rewarded with at present. Pumpkin-seed sunfish did not rank much higher than minnows.

John Day used to paddle along the banks of the winding Licking and down the feeder when he had on short trousers, and wore bare-footed shoes. He owned what was then called a dip-net, a little dough in the center, and a few minutes' wait was all he needed to furnish Adam Day's whole family with a royal fish dinner. Mr. Day looks 40 years younger when he tells of the mighty draught of fishes he used to haul up just below the waterwheel down by Capt. Stone's mill. He tells us the streams were full of good sized bass, pike, rock bass, blue gills, suckers, several species of catfish, and a few carp. Old Licking once bore the name of Pataskala creek, of Indian origin. About the time this name changed and after the white man had been depending on the stream for some of his meat it was reported that a pike was taken from the water that measured five feet in length. One of the fishiest stories that has been told, but has been verified, is the story of the "Bob fishing for bullhead catfish."

This manner of fishing did not require any hook. A piece of meat was tied to a string and hung to the proper depth in the water. Mr. Bullhead came along and closed his mouth tightly over the meat. He would hold on until he found himself out of the water and then in an effort to get back would loosen his hold. This manner of fishing was practiced much at the big and little Indian lakes which were converted into the Licking reservoir—now bearing the dignified name of Buckeye Lake. The tales of the great catches of blue gills and sunfish in those days, although probably true, would be good material for the present-day school teacher to use in cultivating children's imagination. They did not reckon by numbers then, but merely spoke of them as so many buckets full. If the catfish were as large as they said they were—and we have no reason to doubt the truthfulness—they must have been great, great, great-grandfathers. They say they would break great strong lines, the like of which we do not use at present.

There were shad, or shiners, big chubs, and wagonloads of mud-holes, suckers, not forgetting the sunfish, honey buffalo suckers. Then the stories of the number and size of the Black bass that then plowed the waters of old Licking, as told by Granddaddy Myers, would make the fish fan of this century lose his mind.

In order not to endanger the truthfulness of one of our better citizens we will tell his story and withhold the name of the author.

"Once upon a time, not long after the war, some of us went and got a big net. We put it through a mighty big hole just below one of them there drifts. Bill, he took the middle of the seim. A black bass that must have weighed nine or ten pounds fairly sawed the water in front of the net and jumped over the top hither Bill right square in the face. If we hadn't got him out he would have drowned. When we got our ketch on the grass up the boys went home after the spring wagon. What we couldn't use was tossed to the hogs. I tell ye it was some parcel of fish."

To what better use can the money derived from Liberty Bond Coupons be put than in the purchase of United States War Savings Stamps? As tomorrow will be Liberty Bond Coupon Day, this suggestion is offered and bank tellers and cashiers are requested to pass the suggestion on to those who present Liberty Bond Coupons for payment.

The world's best investment today is the United States Government's issue of War Savings Stamps.

First—Because their value is fixed by this government at 100 cents on the dollar—never less.

Second—Because they are absolutely non-taxable.

Third—Because they pay 4.27 per cent interest.

Fourth—Because one can not possibly lose. The stamps themselves may be registered without cost, insuring the owner against theft or loss.

Fifth—Because the government guarantees to refund your money at any time you want it (plus interest) on ten days' notice.

Sixth—Because the value of War Savings Stamps increases every month—the interest being added the first day of each month.

Uncle Sam wants 400 Licking county people to become members of Thousand Dollar War Savings Society. To date the membership is 175. One may join this patriotic organization by buying 200 W.S.S., the May cost of which is \$832. Nobody is permitted to own over 200 W.S.S., but every member of a family is entitled to hold that number of stamps.

Every member of the Thousand Dollar Club will receive an engraved certificate bearing the Governor's personal signature.

Licking county today has approximately 1000 men in the military service of the United States. The people of this county are asked to support these men, not only by buying Liberty Bonds and filling the War Chest next week, but by buying \$1,236,180 worth of War Savings Stamps this year—\$1000 worth of stamps daily throughout the war.

The schools are already "over the top," but the school purchase is only a drop in the bucket compared with the total purchase of stamps asked of Licking county. Multiply the school quota by three and there still remains over a million dollars worth of stamps to be taken by the people of this county.

PROTECT OUR SOLDIERS WITH YOUR SAVINGS!

When you buy a War Savings Stamp, you furnish the shell that may save a life in the barrage.

You put IN FRONT of our soldiers the shells that win their battles. But you put BEHIND them the kind of support that gives them the heart to win. Your words help—yes. But your money—ah, that's the real help. It not only provides the arms they need for victory; it also shows them that you, and millions more, are back of them, lending, giving, and praying for their success. The more of us in this work of backing them up, the surer they are of triumph.

Then think what you are doing for yourself—saving money, laying the foundation for your own success or building the protection for your own future!

And you are in a practical manner demonstrating your patriotism. If a 25-cent Thrift Stamp is all you can afford you are doing your part and can look any man in the eye. If you can take a thousand dollars worth of stamps, and don't do it, you must hang your head before the patriot who puts his only spare change into stamps. Big or little, the spirit is the thing. Put a barrage around our boys on the line!

THE LICKING COUNTY WAR SAVING COMMITTEE

Ford Tractor Demonstration

May 17-18 at Dayton

Columbus, May 15.—While the big tractor tanks are doing their bit to win the war in France, the smaller tractors just as deadly in their attack on backward crops as their big brothers are on the Hun, are doing their bit in Ohio for banner crops and Hoover says "food will win the war."

One thousand of the Fordson tractors, built on the same scientific principles and with the same minute attention to detail which has made "Henry" famous, have been offered to Ohio farmers at a rock-bottom price of \$750 f. o. b. Dearborn, Mich., by Henry Ford himself.

These tractors, 10,000 of which are now in active operation in England and Canada, are being shipped to Ohio communities in carload lots through the Bryant Tractor Co., Columbus, Ohio, who are Ohio distributors for Mr. Ford. They can not be purchased from dealers on the open market.

Over half the machines, offered Governor Cox for Ohio two weeks ago by Henry Ford, have been snapped up by Ohio farmers. One successful demonstration of the machine has been given in Columbus and another will be held Friday and Saturday, May 17 and 18 at Dayton. It will take place on a 19 acre bottom land tract on the farm of Rolla DeWeese, one mile north of Dayton on the Dayton and Troy Electric line. Five machines, operating the special Oliver plows, double cut away disc harrows, pulverizers and rollers, will be shown.

Ohio farmers, who desire to do their bit and win the war by raising larger crops, in spite of the drain upon their farm labor by the draft, should see these machines in action at this time. The demonstrations will be held from noon until four p. m., and a free bus will make hourly trips to the field from the Miami Hotel, Dayton. Skilled mechanics will oversee the work of both the Fordson tractors and the Oliver plows, and explain their operation. The Oliver plows will be sold in Ohio through the Fordson tractor at a special discount price of \$140.

DOCTORS URGE PEOPLE TO USE MORE IRON AND PHOSPHATES

Leading doctors, all over the country are rapidly learning that one of the preparations they can always depend on for all blood and nerve troubles is Phosphated Iron. They have found that it gives results and can be depended upon.

Phosphated Iron has proved a real red blood and nerve builder in the Spring season when so many are all run down and dragged out, due to lack of fresh air, exercise, green foods and clogged poisoned blood. Scientists say Phosphated Iron builds up your body by building up your blood and nerves, and many physicians claim, there would be few over-worked men, nervous women, bloodless old people and pale children, were the benefits of Phosphated Iron more widely known. That there is no need of anyone going around tired out, all in, nerves on edge, suffering with poor blood and lack of energy when Phosphated Iron will make you feel like a live one, make you look 100 per cent better, give you restful sleep, brace you up so you can work with ease and enjoy life once again.

Get Phosphated Iron today and start in right, you owe it to yourself and friends.

To insure physicians and their patients getting the genuine Phosphated Iron we have put in capsules. Do not take pills or tablets. Insist on capsules. Sold by Evans' Drug store and leading druggists everywhere.

AMBITION PILLS FOR NERVOUS PEOPLE

The great nerve tonic—the famous Wendell's Ambition Pills—that will put vigor, vim and vitality into nervous tired out, all in, despondent people in a few days in many instances.

Anyone can buy a box for only 50 cents, and T. J. Evans is authorized by the maker to refund the purchase price if anyone is dissatisfied with the first box purchased.

Thousands praise them for general debility, nervous prostration, mental depression and unstrung nerves caused by over-indulgence in alcohol, tobacco, or overwork of any kind.

For any affliction of the nervous system Wendell's Ambition Pills are unsurpassed, while for hysteria, trembling and neuralgia they are simply splendid. Fifty cents at T. J. Evans, and dealers everywhere.

DRINK HABIT

RELIABLE HOME TREATMENT

THE ORRINE treatment for the Drink habit can be used with absolute confidence. It destroys all desire for whiskey, beer or other alcoholic stimulants. Thousands have successfully used it and have been restored to lives of sobriety and usefulness. Can be given secretly. Costs only \$1.00 per box. If you fail to get results from ORRINE after a trial, your money will be refunded. Ask for free booklet "All about ORRINE."

ACIDS IN STOMACH CAUSE INDIGESTION

Create Gas, Sourness and Pain How To Treat.

Medical authorities state that nearly nine-tenths of the cases of stomach trouble, indigestion, sourness, burning gas, bloating, nausea, etc., are due to an excess of hydrochloric acid in the stomach and not as some believe to a lack of digestive juices. The delicate stomach lining is irritated, digestion is delayed and food sours, causing the disagreeable symptoms which every stomach sufferer knows so well.

Artificial digestants are not needed in such cases and may do real harm. Try laying aside all digestive aids and instead get from any drug-gist a few ounces of Bisurated Magnesia and take a teaspoonful in a quarter glass of water right after eating. This sweetens the stomach, prevents the formation of excess acid and there is no sourness, gas or pain. Bisurated Magnesia (in powder or tablet form—never liquid or milk) is harmless to the stomach, inexpensive to take and is the most efficient form of magnesia for stomach purposes. It is used by thousands of people who enjoy their meals with no more fear of indigestion.—Advertisement.

Ford Tractor Demonstration

May 17-18 at Dayton

Columbus, May 15.—While the big tractor tanks are doing their bit to win the war in France, the smaller tractors just as deadly in their attack on backward crops as their big brothers are on the Hun, are doing their bit in Ohio for banner crops and Hoover says "food will win the war."

One thousand of the Fordson tractors, built on the same scientific principles and with the same minute attention to detail which has made "Henry" famous, have been offered to Ohio farmers at a rock-bottom price of \$750 f. o. b. Dearborn, Mich., by Henry Ford himself.

These tractors, 10,000 of which are now in active operation in England and Canada, are being shipped to Ohio communities in carload lots through the Bryant Tractor Co., Columbus, Ohio, who are Ohio distributors for Mr. Ford. They can not be purchased from dealers on the open market.

Over half the machines, offered Governor Cox for Ohio two weeks ago by Henry Ford, have been snapped up by Ohio farmers. One successful demonstration of the machine has been given in Columbus and another will be held Friday and Saturday, May 17 and 18 at Dayton. It will take place on a 19 acre bottom land tract on the farm of Rolla DeWeese, one mile north of Dayton on the Dayton and Troy Electric line. Five machines, operating the special Oliver plows, double cut away disc harrows, pulverizers and rollers, will be shown.

Ohio farmers, who desire to do their bit and win the war by raising larger crops, in spite of the drain upon their farm labor by the draft, should see these machines in action at this time. The demonstrations will be held from noon until four p. m., and a free bus will make hourly trips to the field from the Miami Hotel, Dayton. Skilled mechanics will oversee the work of both the Fordson tractors and the Oliver plows, and explain their operation. The Oliver plows will be sold in Ohio through the Fordson tractor at a special discount price of \$140.

AMUSEMENTS

GRAND.
"Over the Top."
 With a true grip on the American war spirit, "Over the Top," a new patriotic photoplay, was presented last night in the Lyric Theatre and fairly lifted the spectators out of their chairs with enthusiasm. This photoplay in some particulars differs from any other of the war hitherto seen in that it gives an impression of being phenomenally close to realities in its soldier scenes, featuring little points of human interest. Arthur Guy Empey appears as the hero in the photoplay, his character being Sergeant James Garrison Owen. The early part of the film is transcribed from the book, "Over the Top," and carries out the military scenes depicted in that volume with amazing detail. Then the plot takes up the menace of German propaganda and spies in this country in a powerful and engrossing manner. All the scenes are vivid. There are loud cheers for the President,

one of the most entertaining photoplays seen in a long time. The Alhambra theatre takes pleasure in announcing the appearance on its screen on Wednesday and Thursday of "The Witch Woman." Ethel Clayton is the star. "The Witch Woman" is a World-Picture and is a splendid offering.

AUDITORIUM.
A Wonderful Picture.
 The Auditorium held two large crowds yesterday both the matinee and evening performances drew capacity crowds. In offering Theda Bara as Cleopatra, the widely heralded film version of the loves of Egypt's siren queen, William Fox gives to film fans the greatest ever. Described as a film spectacle of surpassing beauty, "Cleopatra" bares on the screen the passions of the vampire of the Nile. The ancient siren is said to be admirably impersonated by the

Nerviest Man I Have Ever Met." The New York World in commenting on "The Gorman Curse in Russia" said in part: "It is impossible to enumerate from a single showing, all of the important scenes in this collection of views. Among them are the destruction of a U-boat and other vessels under fire; the Duma and Council of Workmen and soldiers in session; Leine haranguing in the streets of Petrograd; the attack on the Duma, march of 15,000 anarchists; close-ups of Kerensky, Eilhu Root and the American Commission and it is said that Mr. Stevens, well known to Newarkites, is seen; David Francis and Mrs. Parkhurst. Particularly notable are the scenes showing the formation of the Women's Death Battalions, the organization of the Bolsheviks; the fraternizing on the front which deceived Russian soldiers, and the later efforts to retake lost trenches, etc. These latter fighting scenes are among the most realistic taken since the war began. In addition to the above a Sunshine comedy, "A Waiter's Wasted Life" will be shown and the entire program is given as a benefit for the Old Guard, who are trying to get enough to defray expenses for their trip to Hamil-

whose picture appears in various inserts, and some hisses for a character named Mr. Folly, supposed to be a pacifist politician. The versatile Mr. Empey turns from having been soldier and author to motion picture, acting with surprising facility, his rugged appearance going well with the theme. He made a patriotic address, gaining much applause. Lois Meredith and James Morrison were featured members of the excellent cast. It is a Vitaphone production presented by Albert E. Smith.—New York Herald.

ALHAMBRA.
Wednesday and Thursday.
 Marie Beaupre was an extremely beautiful Alsatian girl, so it was no surprise when Louis La Farge, famous French artist, fell in love with her when he met her in the mountains where he had come on a painting trip. And Marie fell in love with him, and when Louis deserted her and her relatives and friends discovered her secret,

foremost modern exponent of siren roles. The filmed "Cleopatra" depicts the lady's historical encounters with Caesar and Antony, and the meeting of her army and that of Antony with the forces of Octavius. It shows, as well, the world's first naval battle—the battle of Actium—where the combined fleets of Antony and Cleopatra were routed and finally burned to the water's edge by the Romans.

Ancient Rome and Alexandria were recreated in California, where "Cleopatra" was filmed under the direction of J. Gordon Edwards. The Roman Forum was reproduced and there is shown the death of Caesar. Cleopatra's famous barge once again moves majestically over the water, and the famous feast of Egypt's queen, the feast which by their extravagance dazzled the eyes of Caesar, and later of Antony, are shown in all their sumptuousness. Thrilling chariot races across the desert sands, the hand to hand conflict of spear-armed soldiers, and the tri-

ton in June, at which place the G. A. R. Encampment takes place. Now is your chance to help our soldier boys of '61.

Western Blood.
 There are many acrobatic ways of mounting, jumping or falling on a horse's back but there is only one in which the real cowboys do it. Of course there are times when it is necessary to do stunts in mounting an animal, but under all ordinary circumstances, the good horseman realizes that the dangerous moment that he experiences is when he has one foot in the stirrup and has not gained the saddle. If the horse starts there is apt to be trouble, or he may get away or the saddle turn or a general mix-up ensue.

The right way says Tom Mix, the William Fox star is to place the foot in the stirrup in such a fashion that the natural forward movement of the horse will throw the rider forward so that by lifting the other leg he naturally will fall into the saddle. It is hard to explain and hard to learn but how it is done can be seen by watching Tom Mix in the new picture, "Western Blood." Then you will learn how cowboys do it and not how men who are trying to act like cowboys do it. "Western Blood" will be shown at the Auditorium theatre next Sunday.

"My Four Years in Germany."
 Manager Penberg, when in Cleveland last week, arranged to take to Newark what is said to be the most wonderful photoplay now being presented. It being no other than Ambassador James W. Gerard's "My Four Years in Germany." Gerard is the only man who defied the Kaiser. This feature will be given three days, commencing Monday afternoon. No one can afford to miss seeing Ambassador James W. Gerard's photoplay epic, which exposes the whole history of Russia's aim and secret intrigues, and after seeing it you will understand why America is at war. Why the United States was slated as the next nation to be gripped by the iron clutch of Prussian combination. It is a swift-moving dramatic photoplay, full of startling incidents and replete with action. This will be the first and only presentation of Ambassador Gerard's work in Newark, but it has scored elsewhere and has been playing to capacity audiences for over four months at the Knickerbocker theatre, New York. This production has been arranged for the first three days of War Chest Week, and a large part of the proceeds will go into this chest.

Auditorium Notes.
 Pathe's amazing war film, "The German Curse in Russia," is to be shown at the Auditorium Thursday, is said to be one of the greatest pieces of dramatic photographic work ever taken by any living photographer. Donald C. Thompson, is noted by all as the greatest camera man on earth. These showings on Thursday are given as a benefit for the Old Guard.

Charles Chaplin is to escape the draft, for it is said his income tax, \$250,000, which is said would equip and maintain an entire company of soldiers for a year, looked better than his going to war. Bert Mix, the William Fox star, who comes to the Auditorium Sunday in "Western Blood," was married again last week. The latest musical composition is a song just out called, "If He Can Fight Like Me Can Love, Good Night Germany."

ever got another crack like that it might jar them back into shape.

Al H. Woods presents at the Auditorium next Friday and Saturday his Broadway success, "The Guilty Man" by Ruth, Helen Davis and Charles Klein. This is a wonderful dramatic play, and one man in a hundred would have done as "The Guilty Man" did. At the most dramatic moment in the great trial scene, the prosecuting attorney discovers that the girl whom he is prosecuting, demanding her life's blood in payment for the crime is his own daughter.

Roscoe (Fatty) Arbuckle comes to the Auditorium Sunday in his latest comedy, "Moonshine." In his new western drama coming Sunday, Tom Mix has in his support Victoria Forde, Frank Clark, Barney Furer, Pat Christian and a bunch of western cowboys. It will be seen together with Fatty Arbuckle in "Moonshine," the Cleveland Plain Dealer Magazine and the Auditorium Incomparable Orchestra.

GEM.
 One of the chief supports of Louise Lovely in the James Oliver Curwood five-reel feature, "The Girl Who Wouldn't Quit," which comes to the Gem theatre on Wednesday is Henry A. Barrows. He plays the role of Louise Lovely's father, who has been convicted on circumstantial evidence of murder in the second degree, and sentenced to life imprisonment. It is his unrelenting effort for his release which gives the title to the feature.

SERGT. ARTHUR GUY EMPEY

"OVER THE TOP" is the one story of life in the trenches that has touched every responsive soul in America.

Many thousands have been fortunate enough to crowd their way into the limited capacity of the great halls where Empey has lectured. Now the whole loyal citizenship of the nation can see the fighting "Sergeant" in action, can "go over the top" with him on the Hun Hunts. The marvel of motion picture photography brings to life before your very eyes the pulsing, breathing pages of "the most widely read book" of the twentieth century.

INSISTS HIS DISCOVERY OPENS UP CATARRH STUFFED NOSTRILS IN THREE MINUTES--SOMETIMES LESS

Advices All Catarrh Victims To Throw Away Stomach Medicines, Kill Catarrh Germs with Katarro, Get Rid of Catarrh and Stop Ringing Noises in Ears

Catarrh: One of the most loathsome of diseases is caused by germs—wicked, vicious, persistent pests that multiply rapidly and by digging into and devouring the tender membrane cause soreness, swelling and inflammation with mucus discharges.

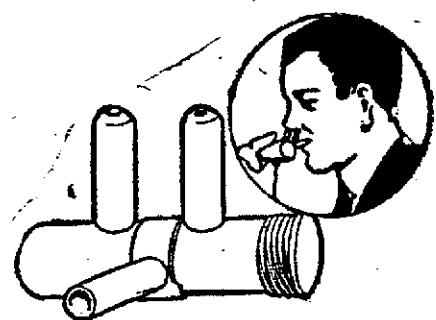

A few years ago catarrh was considered incurable, because no one was clever enough to get up an apparatus that would spread over the entire membrane of the nasal tract a germ killing air in which catarrh germs could not exist.

But the Katarro Blower changed all that and now all you have to do to get rid of catarrh is to blow the germs into eternity.

Just note the picture of the Katarro Blower which is made of highly polished nickel. The small lower tube you place in the mouth, the two upper tubes in the nostrils. Then blow over the entire nasal tract way down into the bronchial tubes, the highly antiseptic germ killing vaporized air of Katarro. That's the way to cure catarrh and to stop those annoying ringing, buzzing noises in the ears. Many people say it is the only way.

Katarro will end the most stubborn case of catarrh in a few days, because it soothes the sore, inflamed membrane, reduces the swelling and kills to stay killed, the microbes that cause all catarrhal troubles.

To make it easier for catarrh sufferers in this vicinity to secure a Katarro Blower and bottle of Katarro, T. J. Evans has agreed to keep a supply on hand at all times and will gladly show anyone how easy it is to get rid of disgusting catarrh at trifling cost.

ELK DAY WILL BE HUMMER FOR OLD AND YOUNG

The Elk war chest committee met last evening, every member of the committee of twenty-one being present. The chairman, Charles Federman, presided and the secretary, Mandel Brashers, read the report of various sub-committees.

The committee on war savings stamps reported activity along all lines and they also stated that they had their books on sale in several of the towns in country districts. The committee is composed of Dr. J. T. Lewis, Atty. F. S. Scott and Leo Thomas, of the B. & O. force. They report that the sale of books is exceeding their greatest expectation and that all factories are responding nobly to the appeal of ticket solicitors.

Elk Tag Day will be inaugurated early on the morning of Thursday, May 23. Byron Dickerson, who has charge of the same stated that he had secured the assistance of thirty-five of Newark's most charming young maidens and that he was sure no one could refuse an appeal to buy an "Elk Tag." Every dollar realized will be 100 per cent profit for Licking county's war chest fund.

Elk Day will be a gala one and Mayor Atherton has issued a proclamation requesting that all business places close that afternoon and join in the festivities. Elk lodges in Central Ohio have been extended an invitation to participate and hundreds of visiting Elks will be here from Columbus, Zanesville, Lancaster, Mt. Vernon and nearby towns to assist in the celebration.

Among the many attractions secured will be the Phi Sigma Chi's Military Girls who will operate a concession and with their attractive display of military goods will make a hit.

The big candy and novelty tent will be in charge of Exalted Ruler Harry D. Hale who will have two handsome young women garbed in the Elk colors, purple and white, to hand out the toothsome chocolate sweets and novelty toys of all description. No one can resist their winsome appeals and they expect to do a rushing business throughout the afternoon and evening.

Then there will be a 49 Show of Frontier life, Little Coney Island, the Mohammed Fortune Telling tent, Elks Museum, The Mysterious Veiled Lady, The Wild Man of Borneo and The Aztecs, Cave Men and Elfs, together with candy stands, refreshments of all kinds, Teddy bears, etc.

Bernie Wingerter will have charge of the "rubber neck car" and will show the passengers over the city to all points of interest, with a descriptive and interesting lecture at all stops. This feature will be well worth patronizing, a splendid ride and a view of many things new to many of our own people.

Messrs. Lewis, Scott and Thomas will operate a concession platform selling war stamps and many other things to interest everyone. They will also be assisted by a bevy of charming young women.

Pretty young girls will operate all stands and concessions and they will have the assistance of the megaphone Elk bally-hoo boys.

Col. Bob Doid's famous military band will be present to help enliven the occasion and the public is invited to turn out and help make the day a big success.

MAY SOON BE DOING DUTY IN FOREIGN WATERS

Lieut. Jas. A. Brown, son of Mr. and Mrs. J. W. Brown of East Newark, who is a surgeon in the U. S. Navy, has recently been assigned to a vessel which will probably do duty in foreign waters.

Lieut. Brown was formerly attached to the Portsmouth naval hospital where he had charge of the surgical work and was also an instructor for hospital corpsmen in bacteriology, anatomy and materia medica.

Mrs. Brown, formerly Louise Birker, and her daughter, who have been at Portsmouth during Lieut. Brown's year there, intend to return to Newark for a few months.

DON'T BE BALD

How to Make Hair Grow Strong, Thick and Lustrous.

Few of us get bald in a day and we all have ample warning when our hair is thinning out.

Parisian sage is a most efficient hair invigorator, but to immediately stop any further loss of hair and quickly start a new growth it must be rubbed into the scalp so the starved hair roots can really absorb it and get the vital stimulation so badly needed. You will surely be delighted with the first application, for your hair and scalp should look and feel 100 per cent better.

Parisian sage is not expensive. It's a scientific preparation that supplies all hair needs—a clean, non-sticky, antiseptic liquid that is sold by W. A. Erman and all druggists everywhere with guarantee to give you perfect satisfaction or money refunded.

Good looking hair is half the battle in any man's or woman's personal appearance. Neglect means dull, thin, lifeless hair and finally baldness, while a little attention now insures thick and lustrous hair for years to come. No matter what your hair troubles try a Parisian sage massage tonight—you will not be disappointed.

RHEUMATISM

Physician Believes a Genuine Remedy for the Disease Has Been Found.

Rheuma, the wonderful rheumatism remedy sold by T. J. Evans and all druggists gives quicker and more lasting relief than other remedies costing many times as much.

Rheuma passes the deadly poisonous secretions into the bowels and kidneys, from which they are quickly thrown off in a natural, healthy way.

Read what a reputable physician says about Rheuma: "I have made a most careful investigation of the formula employed in the manufacture of Rheuma, and I heartily recommend it as a remedy for all forms of rheumatism. I find Rheuma far in advance of the methods generally employed in the treatment of rheumatism, and altogether different in composition from the remedies usually prescribed."—Dr. M. C. Lyons.

This should give any sufferer from rheumatism confidence to try Rheuma.

AKRON DRUGGISTS ENDORSE TANLAC

Officers of Day Drug Co. Report Phenomenal Sales of the Master Medicine

The following statement of the Day Drug Company, of Akron, regarding Tanlac, speaks for itself. Akron is no exception to the rule, as Tanlac wins immediate favor wherever introduced.

"Tanalac has been on sale in our stores for the past two years, during which time we have had ample opportunity to note the astonishing results that have been obtained by its use. Men and women personally known to us as sufferers from deranged stomachs, catarrhal affections, liver and kidney troubles, have been entirely freed from their ailments by the use of this truly wonderful medicine. Tanlac has been a revelation to us."

"The testimonials which we are receiving daily from persons throughout this section are most unusual."

"Many cases are being reported to us from persons of unquestioned repute in all walks of life, of the almost miraculous powers of Tanlac. It is no wonder therefore, that we have sold more Tanlac than any other medicine."

Of the hundreds of users of Tanlac in Akron, not one complaint has come to our observation. We are grateful indeed that you saw fit to select our store as the medium of distribution in this city of Akron.

(Signed) CHAS. F. INK, Vice President; FRANK C. PFAHL, Secretary; L. L. LAMPHIER, Manager, Main store.

TO RHEUMATIC SUFFERERS.

The new Tanlac Rheumatic Treatment consists of a penetrating liniment for external use, and a tablet designed to drive uric acid from the system. It is the modern method of treating this painful and dangerous ailment. If you are suffering from rheumatism get a treatment today.

Tanalac remedies are being introduced in Newark at Erman's Arcade Drug store. Tanlac may also be procured at the Evans pharmacy (Warden Hotel block, east side square, Newark), and the Hebron Drug store, Hebron, O.—(Adv.)

GOVERNMENT NEEDS THOUSANDS WOMEN FOR THE WAR WORK

Washington, D. C., May 14.—

More and more, as the war program progresses, is the Government depending upon women to perform the tremendously increased volume of work in the civil branches. The forces of civilian employees in Washington, D. C., increased from 30,000 to approximately 70,000 during the first year of our participation in the war. Of this increase of 40,000 more than 25,000 are women.

Women make up the increase in Government offices and establishments outside of Washington in less proportion, for the reason that the greatest expansion in the field has been in the large manufacturing plants of the War and Navy departments, where thousands of mechanics and laborers are employed in shipbuilding and in manufacturing ordnance and other war material.

Women are not available for employment in trades positions to any great extent, but their services are being utilized in every way that is practicable.

The United States Civil Service Commission is calling for women for Government work of not less than 50 different kinds. The list includes stenographers, typists, bookkeepers, other clerks of a score or more of classifications which require training in some special or technical line, statisticians, operators of various kinds of calculating, addressing, and duplicating machines; proof readers, law clerks, welfare executive secretaries, draftsmen of a dozen kinds, telegraph and telephone operators, trained nurses, chemists, physicists, library assistants, inspectors of undergarments, finger-print classifiers, and many others.

The Commission urges women to offer their services to the Government at the time of greatest need. As men are called to the colors, women must take their places and keep the machinery behind the armed forces moving at the maximum of efficiency. Representatives of the Civil Service Commission at the post offices in all important cities are prepared to furnish definite information and application blanks.

White Lead and Oil Certain Loopholes-

BE YOUR white lead and oil mixture ever so pure, it is no more fit to be used as a protective covering for your house than is pure gold suitable for a watch case.

Copper and silver are added to gold, making it an alloy and giving it wearing qualities.

And it is these very same principles that insure the wearability of

Low's Brothers
HIGH STANDARD
LIQUID PAINT

To the white lead and oil are added just the right proportions of zinc and such other materials as experience has proved add to the lasting qualities of the paint.

The lead has the covering qualities—the zinc the hard protective properties. And it is so with each of the other ingredients—each one adds something to the paint either in covering, spreading, beauty or durability.

Of even more importance is the right combining of the right ingredients. HIGH STANDARD is so thoroughly ground and re-ground that the oil is completely incorporated with all the other ingredients—a thing utterly impossible with the old hand-mix method.

Come in and let us show you samples of HIGH STANDARD—made up on panels of wood just as you would paint your house.

MILLION TONS OF SHIPS COMPLETED NOW IN SERVICE

Washington, May 14.—The first million tons of ships completed and delivered to the United States government under the direction of the shipping board have been put on the high seas to help defeat Germany.

A total of 159 vessels of 1,108,621 tons was completed up to May 11, according to statistics compiled by experts of the shipping board.

Since January 1 more than half of the total tonnage—667,896—has been delivered and the monthly totals have shown a steady increase.

Most of the ships delivered were requisitioned on the ways or under contract form when the United States entered the war. Virtually all are of steel construction. None of the ships of the great wood program has been delivered, although 46 have been launched, due to delay in obtaining boilers and other machinery.

The first completed woodship built on contract for the government now is undergoing speed trials off the Pacific coast. Deliveries of ships made last week were made at Seattle, Sparrowpoint, Md.; Chicago, Ecorse, Mich.; Gloucester, N. J.; Wilmington, Del., and New York.

BRITISH CASUALTIES 41,612. (Associated Press Telegram)

London, May 14.—The total of British casualties reported in the week ending today is 41,612.

They are divided as follows—Killed or died of wounds: Officers, 501; men, 5065; wounded or missing: officers, 2123; men, 33,923.

Reports of British casualties usually are not available for some time after the actions in which they are sustained. The large total in the last week evidently represents losses suffered when the fighting in Flanders and Picardy was at its height. Complete records have not been given out, but it is probable that the casualties reported in the last week are the heaviest British losses of any week of the war. The total last week was 38,691.

COMFORT KITS ARE NEEDED FOR AMERICAN ARMY

Another call has been issued for comfort kits to be given to the soldiers as they are leaving the camps or cantonments, or at the point of embarkation.

The lake division of the Red Cross has been asked to make 30,000 of these kits, and the quota for Licking county is 150.

The present call is urgent and every effort should be made to fill the Licking county quota.

Every man who goes to the trenches carries a comfort kit. It is practical and the directions which follow for making the kit supersede all others which have been published. They are new made in the simplest manner possible and contain only the needed articles.

The direction and articles needed follow:

Materials for the Kit—(This does not include material to be sewed.)

—A plain, inexpensive khaki-colored will find the army and blue denim or "dungaree" for the navy are suggested as most desirable. Figured cottons are not suitable for this purpose.

Quantity required: One-fourth of a yard of 27-inch material; 60 inches of khaki or blue tape for a double draw-string; and an American flag for making the outside.

Directions for Making the Kit—Fold the material in the center of the 27-inch length and sew it up into a simple bag, with an inch-and-a-half seam at the top through which is run the double draw-string. This makes a bag about 12 by 8 inches. The tape should be particularly strong.

This bag may also be made without the draw-string, in which case a piece of tape about one-half inch wide and one and one-half yards long should be strongly attached to the top about two inches below the top at one of the seams, so that it may be tightly wrapped around the gathered folds of the bag, securing the contents.

Contents of the Kit—(1) Housewife (directions for making are given below), (2) 20 yards of light strong cord, fish-line style, (3) cigar lighter with cotton wick, flint and steel sparker, but without liquid (for the army only—must be omitted from all kits for the navy), (4) shaving soap, (5) toothbrush, in case; (6) short comb, in case; (7) pencil (with eraser and metal cap to cover point).

The kit may contain in addition: Jack-knife (containing, if possible, corkscrew, can-opener, leather punch, combination screw-driver and bottle-opener); small carburetor stone, about 3x1 1/4 inch, for sharpening knife; safety razor; 25 post-cards; small crash towel, white handkerchief (for the navy only).

In no case should anything perishable, such as chocolate, candy, etc., be included.

Housewife (materials)—A durable fabric of lighter weight than that suggested for the comfort kits is recommended. Flannel should be used for holding the pins and needles.

Quantities required: One strip of material 5 1/2x12 inch, for roll; two pieces of flannel 3x4 inch, and 21 inches of tape.

Size when finished: 4x6 1/2 inches (unrolled).

Directions for Making—Make a narrow hem at each end of the 12-inch strip. Turn up these hemmed edges to form a 2 1/2-inch pocket at each end. Button-hole hem, or pink sides and one end of flannel pieces. Lay the flannel pieces, overlapping each other, in the center of the strip, with the raw edges lying along either side of strip. Stitch along sides of strip, five-eighths of an inch from edge; then turn these stitched edges to make flat, felled seams. Attach middle of tape to center of outside of strip. Roll and tie.

Contents of the Housewife—(a) eight sharp needles (large enough to carry heavy thread easily), (b) two darning needles, (c) six safety pins about two inches long, (d) six safety pins about one inch long, (e) two blanket pins, (f) strong thread, carded, khaki for the army, black for the navy, (g) strong white linen thread, carded, (h) 12 buttons, khaki for the army, black for the navy, (i) six white buttons, (j) six hooks and eyes.

Enclosed in small bag 3x2 inches, with draw-string.

TO RECEIVE BIDS STATE AID ROADS

Columbus, May 14.—State Highway Commissioner Clinton Cowen announced today that bids will be received May 31 for the construction of 41.8 miles of new state aid roads in twelve counties of Ohio, the estimated cost of the contracts on which bids are to be received being \$1,010,178.28.

Included in the contracts are portions of the Lima-Kenton and Lima-Ottawa roads in Allen county; the Cincinnati-Hamilton and Eaton-Middletown roads in Butler county; the Washington-Springfield and the Washington-Hillsboro roads in Fayette county; the Dayton-Indianapolis, the Dayton-Troy, the Dayton-Greenville and the Dayton-Lebanon roads in Montgomery county; the Cincinnati-Dayton, the Hamilton-Middletown and the Cincinnati-Dayton roads in Warren county.

ELIMINATES COMMANDEERING OF THE OIL LEASING BILL

Washington, May 14.—The house public lands committee as a result of the conference between Chairman Ferris and President Wilson last night, today eliminated the commandeering section of the authorized favorable report of the bill. The section eliminated authorized the president to take over any or all oil interests engaged in prospecting on the public domain whenever public interest required it.

Martinelli sings a delightful ballad of love and springtime

Welcome, Love! (Cecilia Deni-Emilio A. Roxas)

Giovanni Martinelli

Victrola Red Seal Record 64772 Ten-inch, \$1

The composer of this dainty little lyric dedicated it to Martinelli.

The famous tenor repays the compliment by giving an exquisite interpretation that displays all the beauty of this charming number—an interpretation the composer may well cherish as his own ideal.

And on this new Victrola Record it will delight music-lovers the country over.

Hear this new Martinelli record to-day at any Victor dealer's. He will gladly play any music by the world's greatest artists who make Victrola Records exclusively. He will also demonstrate the various styles of the Victor and Victrola—\$10 to \$400. Period styles to order from \$375 to \$950.

Victor Talking Machine Co., Camden, N. J.

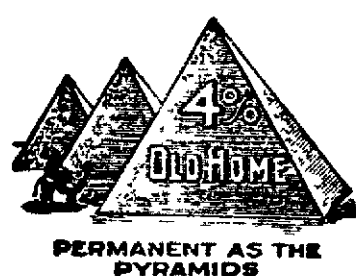

Important Notice. Victor Records and Victor Machines are scientifically coordinated and synchronized in the processes of manufacture, and their use, one with the other, is absolutely essential to a perfect reproduction.

New Victor Records demonstrated at all dealers on the 1st of each month.

BRITISH NAVAL EXPERT PRAISES AMERICAN NAVY

(Associated Press Telegram)
London, May 14.—American naval and air operations have been of the greatest help to the British fleet, says Archibald Hurd, the naval expert, writing in the Daily Telegraph on the new situation in the North Sea resulting from the Zebrugge and Ostend raids, the extension of British mine fields and the generally increasing naval pressure against Germany.

"When the war is over," he says, "the nation will form some conception of the extent of the debt which we owe the American navy for the manner in which it has co-operated, not only in connection with the convoy system, but in fighting the submarines."

"If the naval position is improving today, as it is, it is due to the fact that the British and American fleets are working in closest accord, supported by an immense body of skilled workers on both sides of the Atlantic who are turning out destroyers and other craft for dealing with the submarines as well as mines and bombs."

"The Germans can have a battle when or they want it. The strength of the grand fleet has been well maintained. Some of the finest battleships of the United States navy are now associated with us. They are not only splendid fighting ships, but they are well officered and manned. If Admiral Beatty were asked his

opinion there is no doubt of what he would say of the aid which the United States has given in this respect. The conditions under which the Germans would engage us, therefore, are less favorable than two years ago."

WRITE OUR SOLDIER BOYS AT THE FRONT

To your friends in the army and at the front, "write letters and write lots of them," urges Private O. L. Daily. To the employees of the F. W. Woolworth Co. store Daily said that the one thing that a soldier looked forward most to was a letter. Tell him the things that happen at home no matter how trivial they may seem to you. He has no other way of finding out about the things that are dear to him. And write often. Nothing is so disheartening to the soldier than to fail to get a letter from home or from friends, day after day. It makes the soldier that much better fighter to know that his friends back home are thinking of him.

RUSH SHIPBUILDING.

(Associated Press Telegram)
Washington, May 14.—Eight steel ships totalling 48,158 tons were completed during the seven days ending May 11. Fourteen vessels were launched with a total tonnage of 57,190 of which seven were steel with a total capacity of 32,100 tons. The steel deliveries included one refrigerator ship, two tankers and five cargo vessels. The state of Maine during the week turned out its first wooden ships for the government—the Andra, 3500-ton vessel built at Portland.

FIRE HEAVY ON SOMME SECTOR DURING NIGHT

(Continued from Page 1.)

ents driven by the Germans since March 21, the enemy artillery has been active, but there are no signs of renewed infantry activity. Lengthy fighting continued in the North of Kemmel, around Serre, on the line between Albert and Arras and on the southern end of the British line across the Somme and on the French sector immediately south. The German big guns are hurling thousands of shells into the allied positions.

Allied airmen are taking advantage of every opportunity to invade enemy territory. Many more tons of bombs have been dropped on important railway centers and other military targets behind the German lines in Flanders and Picardy. In aerial fighting the British have brought down six more enemy machines. While British naval airmen bomb the German submarine bases at Zebrugge and Ostend, army fliers conduct the aerial bombardment of Bruges.

West of Montdidier, in Picardy, and northwest of Toul, America's artillerymen are harassing the Germans with a heavy fire. Considerable damage is believed to have been caused on both sectors.

The announcement from Ottawa that the American army was not to be employed fully against the Germans until it was a complete unit, it was declared in London was due to an error, which has been corrected.

Lively fighting continues in the Monte Corso region, south of Asiago, with the Italians throwing back repeated Austrian efforts to regain the summit of the mountain. Elsewhere on the Italian front the artillery duel goes on, but there are no indications that the enemy is ready to start his heralded attack.

CAMP SHERMAN NOTES

(Associated Press Telegram)
Camp Sherman, Chillicothe, O., May 14.—The legal status of certain classes of "conscientious objectors" and of their organizations is expected to be determined in the trial of Private Herbert Lake, now in the conscientious objectors segregation camp here, under charges of having refused to obey a lawful order of a superior officer. Lake, whose home is in Chagrin Falls, is a member of the "Fellowship of Reconciliation," an English organization of objectors to war.

The select, who was graduated from Hiram college last June, is alleged to have become a member of the organization three days after the passage of the selective service law.

Officers here are interested in a number of points which are expected to be determined during the trial. Whether the "Fellow of Reconciliation" is a bona fide organization of conscientious objectors will probably be settled. Authorities here take the stand that it is not such and that its adherents have no claim for exemption.

Three weeks following his induction into the service, Lake is alleged to have worn his uniform and to have performed such tasks as were assigned to him. Following the receipt of a letter from a field secretary of the organization officers say he took off his uniform and refused to perform his usual tasks.

Pistol practice for members of the three machine gun battalions is being held daily. The men are to be protected by automatic pistol fire in case they need weapons other than their deadly machine guns. All of the selectives in the three organizations will be furnished with heavy automatic pistols before they take their places on the firing line in Europe.

A trench sector is in use here to properly teach the Ohio and western Pennsylvania selectives how to defend themselves against gas. Dugouts have been constructed and made gas proof. Communicating and front line trenches are used.

Batteries C and D, 324th heavy field artillery completed their problems on the artillery range today. Batteries B and F, comprising the third battalion of the regiment will go to the range tomorrow morning to fire with the 4.7 inch gun howitzers. With the completion of the work of the latter batteries every artillery selective here will have had actual experience in handling the field pieces. Moving of all supplies for the organizations of the divisions at night, to acquaint them with actual field conditions in France, and which has been in operation for just a month, has pronounced quite satisfactory by officers here.

ASSUMES LITHUANIA WILL PARTICIPATE IN GERMAN WAR BURDENS

(Associated Press Telegram)
Amsterdam, May 14.—Emperor William has issued a proclamation concerning Lithuania in which he says it is assumed Lithuania will participate in the war burdens of Germany.

In the proclamation the "independence" of Lithuania, allied with the German empire is recognized. "We assume that the conventions to be concluded," the proclamation says further, "will take the interests of the German empire into account equally with those of Lithuania and that Lithuania will participate in the war burdens of Germany which secured her liberation."

Lithuania is one of the former Russian border states which the Germans have attempted to set up as nominally independent countries under German influence. Germany is making every effort to exploit the states economically, but except in the case of Poland has not attempted to force the former Russian subjects to fight with the German army, as the emperor's announcement indicates may now be done in Lithuania. The attempt to enroll a Polish army on the same plea that is now made in the case of Lithuania was a failure in the "Polish legion" which was abandoned.

The Vorwaerts said recently that strong opposition was developing among the Lithuanians to transforming their country into a German semi-independent state. Entire independence is demanded. The Lithuanians number about 2,000,000 and are found mainly in the former Russian governments of Kovno, Vilna, Grodno and Suwalki.

OFFENDERS ARE GIVEN FINES OR SENT TO JAIL

"Granny" Eiben, topper the list at police court this morning, and while the city prison seemed more homelike to him, the mayor sent him to the county jail to work out a fine of \$5 and costs.

Lewis Fakete was fined \$1 and costs for riding a bicycle on the sidewalk where the streets are paved. A. J. Berry swore to an affidavit charging Ben Wheeler with taking four brown leghorn hens. Wheeler waived examination and was bound over to the common pleas court in the sum of \$50.

Patrick Boyie who said his home was in Chicago was arrested on a charge of intoxication and was ordered out of town this morning by the mayor. David Laisure who was working out a fine of \$50 after he had quit a job secured for him at the Wehrle company, was released yesterday when he showed that after quitting Wehrle's he had applied to the Jewett and that the latter company was willing to employ him.

SUNDAY WILL NOT BE A CANDIDATE FOR MODERATOR

(Associated Press Telegram)
Columbus, May 14.—Commissioners already here for the opening on Thursday morning of the 130th general assembly of the Presbyterian church in the United States of America expressed the belief today that the contest for the election of a new moderator undoubtedly will be between Dr. J. Frank Smith, Dallas, Texas, and Dr. W. C. Covert of Chicago.

These men will lead on the first ballot when voting begins Thursday afternoon and unless something unforeseen happens one of them will be elected, the commissioners said. The assembly legislates for the church and the moderator is recognized as the leader of the church for the year following his election.

Dr. Smith, pastor of one of the largest Presbyterian churches in the south under the supervision of Presbyterian church north, was host at last year's meeting which was held in Dallas. He was a member of the Cumberland branch of the church which united with the north church fourteen years ago and his election is being urged on the grounds that the Cumberland faction has not had a moderator since its union.

Rev. William A. (Billy) Sunday, the evangelist, who has been mentioned for the place will not be present at the election because of his evangelical campaign in Chicago and is said to have thrown his support to Dr. Covert of Chicago. Commissioners conceded that if he could be present, Rev. Mr. Sunday probably could be elected moderator as a recognition of his evangelical work.

More Shoulders Under The Load!

This community, several times, has been called upon to lift and carry a part of the Nation's burden of war relief.

Each time our people have responded nobly, fully and freely---have done more each time than was asked of them.

Yet, at no time have more than about 7,500 out of our entire population had their shoulders under the load.

What about the others? Do they ALL lack patriotism? Are they ALL slackers? Are they ALL too poor to give anything?

Surely there can be but one answer to these queries, and surely that answer must be "NO" to each.

Surely more than one person in every eight of our people is willing and anxious and ABLE to contribute to the health and comfort and safety of the men who fight for us.

Surely all they need is the opportunity to do their fair share of the work. The County War Relief Chest will bring this opportunity.

Because, under that plan, an army of over 500 workers will comb this county thoroughly, until every man, woman and youth will be given the opportunity to do, not their "bit", but their best.

The County War Relief Chest Plan means but one money-raising campaign for war needs for an entire year, commencing July 1st. You will not be bothered by solicitors every few weeks, as the War Relief Chest takes care of every approved agency of war relief, the best known of which are the Red Cross; the Y. M. C. A. war work, the K. of C. war work and the Jewish War Relief.

Everyone will be expected to subscribe to the very limit this once for all the year. Make up your mind right now to put your shoulder under the load.

LET US BE BUSINESS-LIKE INSTEAD OF WASTEFUL

Under the War Chest Plan every dollar contributed will be spent for 100 cents worth of war relief---not one cent for expenses or salaries. Every effort will be made to count; there will be no waste of money, or time, or energy. This County War Chest Plan is going to be presented to you PERSONALLY during this campaign. Learn all about the plan now, so that you will be ready to respond promptly and properly when the solicitor gets to you, and so that you can explain it to others. You cannot help approving the idea when you understand it.

How Licking County Will Fill Its \$360,000 War Relief Chest

- 1—In a four-day whirlwind campaign, the entire amount is to be subscribed, thus avoiding repeated efforts wherein the same workers appeal to the same people for funds, time after time.
- 2—Every dollar will be used for War Relief during the year commencing July 1st—the Red Cross, the Y. M. C. A. War Work, the K. of C. War Work, the Jewish War Work and all such other agencies for War Work as may be found worthy.
- 3—EVERYBODY can thus contribute ONCE to all war relief needs, either in a lump sum, or by monthly payments.
- 4—Over five hundred workers will see, personally, everyone in this community.
- 5—The expenses of the campaign are being paid for from a separate fund, already provided, and none of your money will be used for that purpose.
- 6—Your committee will have the information and the authority to judge what are the necessary war relief needs—and what is a fair quota for Newark and Licking county to pay.

The Campaign Starts Monday, May 20--Be Ready

Above All, Let Us Give From the Heart; Generously, Willingly, Patriotically
